

## Course Name:

Basic Offshore Safety Induction and Emergency Training (with Compressed Air Emergency Breathing System)

## Short Description:

This OPITO approved, 3 day BOSIET with Compressed Air Emergency Breathing System (CA-EBS), will introduce delegates to the specific safety issues and regimes relevant to offshore installations.

OPITO Standard 5750

## Course Type:

Offshore Courses

## Full Description:

- **Aims**

The aim of the BOSIET (with CA-EBS) is to introduce delegates to the specific safety issues and regimes relevant to offshore installations, and to equip them with the basic emergency response knowledge and skills for travelling to and from offshore installations by helicopter.

- **Objectives**

The objectives of the BOSIET (with CA-EBS) Training are that delegates will be able to:

Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks

Identify key offshore related safety regulations and explain the basic safety management concepts
