

Course Name:

Helicopter Underwater Escape Training with Compressed Air Emergency Breathing System (CA-EBS)

Short Description:

Short Description

This OPITO approved 1 day course has been developed specifically to meet Aviation Regulation requirements in the UK OPITO Standard 5295

Course Type:

Offshore Courses

Full Description:

- **Aims**

The aim of the HUET (with CA-EBS) programme is to prepare delegates that intend to travel to and from offshore oil and gas installations and vessels by helicopter by providing specific training in pre-flight and in-flight requirements and to equip delegates with the basic emergency response knowledge and skills required in the event of a helicopter emergency – with specific focus on escaping from a helicopter following ditching.

- **Objectives**

The objectives of the HUET (with CA-EBS) Training are that delegates will be able to:
